

THE KNOWLEDGE MANAGEMENT SUITE FOR PROGRESSIVE ORGANISATIONS

emKnowledge is a web-based knowledge management suite providing a rich array of tools for content, contact and relationship management.

It is used by organisations worldwide to empower and engage staff and stakeholders in the knowledge management process, whilst allowing for striking efficiency and productivity gains.

emKnowledge is the result of years of close consultation with our clients and is constantly under development. This ensures the latest technology is available to you at an affordable price.

To request an online demonstration or to arrange for a presentation by our team, please get in touch.

Sample emKnowledge clients:

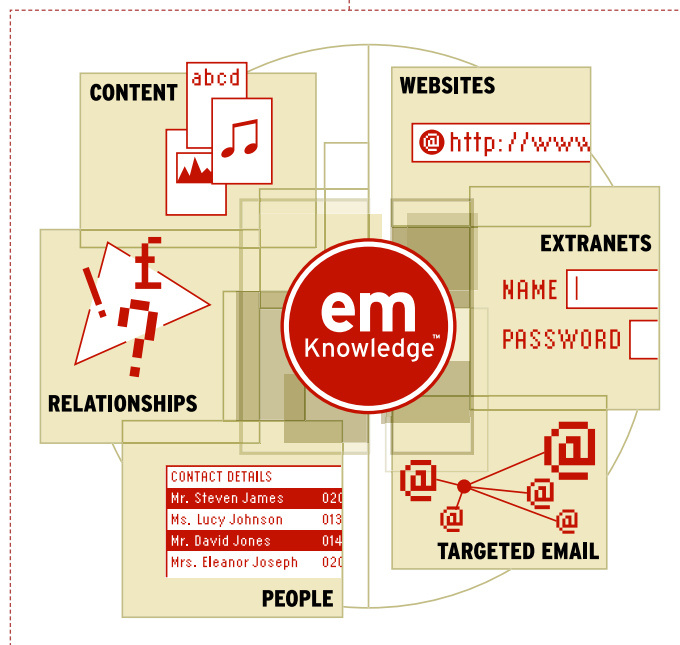

- > AccountAbility
- > Advice UK (Inclusive Quality Project)
- > Authentic Business

- > Innovative contact profiling options
- > Run reports and labels from MS Access
- > Fully customisable for each client
- > Web standards compliant (XHTML, CSS)
- > Accessibility as standard (WCAG Level 1 compliant)

"Ethical Media's expert support and user-friendly products have enabled us to work more efficiently and unlock the potential that exists within our widely dispersed Project team. We now have a virtual office, complete with accessible data files and notice boards—improving our teamwork. We are also more accessible to our clients, potential funders and external colleagues."

**—Phil Jew, Project Director
IQP, (AdviceUK)**

"Working with suppliers who care as passionately about our cause as we do makes all the difference in ensuring we have the right products to meet our needs. Ethical Media delivered a web tool to connect trade justice campaigners that helped us achieve the biggest simultaneous lobby of MPs this country has ever seen."

**—Glen Tarman,
Trade Justice Movement**
